Not sure what to do when your child is unwell?

Parents, carers and healthcare professionals can access expert advice about common childhood illnesses and how to treat them via a mobile app, called HANDi App. It is free and can be downloaded to any Apple or Android smartphone or tablet.

Developed and approved by Paediatric Consultants here at the RUH, the HANDi App provides expert advice on how best to manage the six most common childhood illnesses; diarrhoea and vomiting, high temperature, chestiness, newborn problems and stomach pain.

The HANDi App aims to give parents and carers more confidence in dealing with minor conditions at home. It's easy to use as it takes the user through a series of questions about the symptoms their child is experiencing and then advises on the best course of action, whether that's to treat at home, make a GP appointment or to go to A&E.

Helper Plea

We are in need of some volunteers to support with reading and spellings in Pine Martens and Kingfishers class.

It could be parents, grandparents, aunts, uncles, etc. If you could help, or know of anybody that might be interested, please speak to your child's class teacher.

You do not have to have a child in these year groups to help but you will need to be DBS checked. If you do not have a DBS certificate but would like to help in school, please speak to Eve Moore in the school office.

Thank you, Mrs Seviour

Wood

Wood work is forming a central part of the curriculum in our Science and Technology year. If you have any spare bits of softwood (cedar, lime, pine) do please bring them in marked for the attention of Ms Heard.
